I am a person with interests in web and app development, UI/UX design, videography/photography, and music production, and a strong commitment to professionalism. With a proven track record, I have over a year of experience creating visually appealing websites and mobile apps while prioritizing a smooth user experience. On the other hand, I already have 4 years of professional experience in producing and managing commercial video and photo content. Committed to continuously learning and developing in the field of information technology.
